

Sencia Canada Ltd. is a global leader in developing online applications for clients worldwide. Sencia's services encompass a number of e-business solutions including learning management systems, content management systems, web design projects, web marketing, ecommerce and custom applications.

## **SE1 - Programmer - Youth Internship**

This entry level position is partially funded by the Northern Ontario Heritage Fund. Candidates must be 29 years of age or younger and have graduated with a computer science degree or diploma program within the past 3 years from an accredited college or university. The Youth Intern will be working with Sencia's "Informetica" Learning Management System Division, developing modules and offering support to Sencia's global clients. Programming skills in ASP, ASP.net and MS SQL scripting and database development are desired. JavaScript, DHTML and CSS are required. Strong understanding of patterns, OOD modeling techniques and UML are an asset.

## **SE2 - Programmer**

If you enjoy a fast-paced, exciting career as a Programmer, Sencia is looking for a permanent, full-time Application Developer. As part of the development team for Sencia's Informetica Learning Content Management System, you will be responsible for programming additional modules and custom development projects based on client-specific needs and R & D projects.

To qualify, you must be proficient with ASP.NET, C#, object oriented programming and design, MS SQL scripting and database development. In addition, strong skills in JavaScript, DHTML and CSS are required. An understanding of patterns, OOD modeling techniques and UML area an asset.

*Only applicants selected for an interview will be contacted*
