

OVER 12 MILLION PEOPLE BENEFIT FROM OUR WORK ... EVERY DAY. From radio operators to research scientists, speechwriters to social workers – more than 60,000 Ontario government employees make a difference in the lives of over 12 million people across the province every day. If you're looking for a truly enriching and satisfying career, chances are there's a place for you in the Ontario Public Service.

Join the **Ontario Clean Water Agency**, an agency of the Ministry of the Environment, in one of the following roles.

MANAGER, WORK MANAGEMENT SYSTEMS & OPERATIONAL SYSTEMS SUPPORT

Do you have knowledge of the maintenance and operations of water and wastewater systems? Do you have technical expertise in asset maintenance management for water/wastewater systems? Then, you will be interested in this opportunity to plan, organize, control and evaluate the delivery of the asset management program, capital planning, maintenance programs and condition audits at facilities within the northern region. In addition to technical knowledge of the theories, principles, practices and certification related to the functional/plan areas of water and wastewater maintenance, you have knowledge of related legislation, codes, standards, policies and quality assurance practices, plus applied knowledge of finance and human resources. Experience writing technical plans and proposals is essential, as are the ability to give presentations, demonstrated project management skills, strong administrative and client service skills, priority-setting and time management skills, and excellent interpersonal, written and oral communication, assertiveness, consensus-building and diplomacy skills. PC proficiency is also required. **Location: Thunder Bay.**

To apply to this position, send your resume, quoting **Job ID 30547**, by **Sept. 13, 2010**, to: **Ontario Clean Water Agency, 335 Euclid Ave., Thunder Bay, ON P7E 6G6. Fax: 807-475-1531.**

SENIOR OPERATOR/MECHANIC

Use your experience to operate and maintain water/wastewater treatment projects, and related pumping stations, wastewater collection and distribution systems. You must have valid wastewater treatment class 2, water treatment class 2 and water distribution class 1 and any other related certifications as specified in the Regulations of the Safe Drinking Water Act and the Ontario Water Resources Act. These are backed by extensive experience with, and knowledge of conventional water/wastewater treatment processes in order to assume 'operator with overall responsibility' as designated. You have sound mathematical and record-keeping skills, applied knowledge of mechanical, electrical and instrumentation techniques, practices and maintenance, basic computer skills/knowledge for process control and data entry, and knowledge of sampling and chemical techniques. A valid class G driver's licence, effective communication skills and the ability to work on-call/scheduled shifts and weekends are also required. Pay for certification. Less qualified candidates will be considered on an underfill basis. **Location: 30 Honka Dr., Hornepayne.**

To apply to this position, send your resume, quoting **Job ID 30564**, by **Sept. 13, 2010**, to: **Athalie Lanthier, Ontario Clean Water Agency, 101 King St., P.O. Box 819, Longlac, ON P0T 2A0. Fax: 807-876-2560.**
