

**ZELLSTOFF  
CELGAR**

Zellstoff Celgar operates a 1400 tonnes/day state-of-the-art bleached kraft pulp mill located in the West Kootenay region of Southeastern British Columbia. This market kraft operation is committed to being its customers' preferred supplier of customized pulp while maintaining its responsible position within the community.

## **ELECTRICAL/INSTRUMENTATION SUPERVISOR**

We are seeking an experienced individual to work in a multi-trade work environment and contribute to our steady improvement in reliability and productivity. The successful candidate will have appropriate trades, technical or engineering qualifications, and will specialize in the maintenance and operation of reliable electrical systems.

The optimum candidate will be able to demonstrate a commitment to achieving exceptional safety performance. They will have experience and knowledge with world-class maintenance practices; including preventive and predictive maintenance. Experience within pulp and paper or heavy industry is an important asset; however the proven ability to collaborate with Operations, Technical and Engineering personnel to achieve outstanding results is the key qualification.

The successful candidate will also have strong leadership abilities and a demonstrated passion for improving equipment performance.

Zellstoff Celgar is just minutes from Castlegar, BC in the beautiful West Kootenay region. The area offers a college, quality leisure facilities and excellent year-round recreational opportunities. To apply for this position, submit your resume by September 10, 2010 to:
