

Tembec

**A Company of People
Building Their
Own Future**

Tembec Kapuskasing operates an integrated newsprint and lumber manufacturing operation that produces quality newsprint and publishing paper grades for the newspaper and commercial printing industries, and stud lumber for the construction industry.

Our Newsmill Operation is looking for an experienced individual to join us in **Kapuskasing**.

Mechanical Supervisor

Drawing on your extensive experience in a newsmill environment, you will supervise and direct a multi-trades crew carrying out mechanical maintenance work in the Newsmill. This will see you ensuring the effective, efficient maintenance of all related equipment, the ongoing improvement of maintenance techniques and the effectiveness of your crew, while working within a team environment to maximize site profitability. In addition to having your Mechanical Maintenance Tradesperson certification and/or Technologist or Engineer designation, you will be expected to pass a series of aptitude tests.

If this challenge interests you, please send your resume, in the strictest confidence, by **September 4, 2010**, to: **Cynthia Raby, HR Coordinator, Tembec – Kapuskasing Operations, P.O. Box 100, Kapuskasing, Ontario, P5N 2Y2. Fax: 705-337-9691. E-mail: kapops.recruit@tembec.com**. *Please note that only selected applicants will be notified.*
