

Hudson Bay Railway, an OmniTRAX, Inc. managed company, owns and operated over 800 miles of track through Manitoba to the Hudson Bay, is seeking candidates who have the knowledge and desire to work out of The Pas in Northern Manitoba.

• **Administrative Assistant:**

Assist the Engineering department in overall administrative duties.

• **General Roadmaster:**

Serves as the Engineering department head for HBR.

Responsible for the planning of all track-related activities and managing maintenance of way crews.

• **Locomotive Machinist:**

Inspects, troubleshoots, performs preventive maintenance and installation of locomotive mechanical systems and equipment (diesel engine, wheels/truck repair and air brake).

• **Track Tamper Operator (4 positions):**

Work location is between The Pas and Churchill, MB. Training will be provided for individuals with the appropriate background and aptitude. Candidates with experience operating and maintaining heavy equipment are encouraged to apply. The ability to read electric and hydraulic schematics, basic knowledge of track geometry, good computer skills and qualification in CROR is highly desirable.

• **Roadmaster** – 4 positions (Gilliam/Thompson, MB): Serves as the territory lead, responsible for the planning of all track-related activities including priorities, performance expectations, metrics and measurements.
