

Metso is a global supplier of sustainable technology and services for mining, construction, power generation, recycling and the pulp and paper industries. Our 27,000 employees in more than 50 countries have two things in common: expertise and a true service attitude. Expect results.

The Thunder Bay office is looking to fill temporary positions in the following area:

Design Engineering

You will be responsible for preparing general system design, layout and detail drawings, applying established design techniques and technical knowledge. As required, you may assist with field dimensioning, system start-up and project management responsibilities. Preferably you have an educational background in Mechanical Engineering, with related experience in the Pulp & Paper Industry and/or knowledge of the papermaking process and paper making products. You must be proficient in AutoCAD. Working knowledge of Catia would be an asset.

If you possess the required qualifications and are interested in joining the Metso Team, please submit your resume (in complete confidence) by September 13, 2010 to:

Human Resources
Metso Paper Ltd.
400 Memorial Avenue
Thunder Bay, ON P7B 3Y5
E-Mail: pat.opas@metso.com

We wish to thank all applicants for their interest, however, only those selected for an interview will be contacted.
